

# What Should I do?

If I keep on kissing this person maybe they'll go out with me.

I like kissing and they seem willing. I don't need to think too much about it.

## Do Nothing

Get hurt, loose the friendship, rumors start, feel disrespectd...

A friend says they don't want to go out, but they often try to kiss you?

## Depends

How long has it been happening?  
How much do you like the person?

## End Relationship

Get hurt, loose the friendship, feel good about yourself...

## Discuss & Try to Change

Get hurt, loose the friendship, stay friends without kissing, start dating ..
